

SMR technical demo for L^AT_EX

January 9, 2023

First Chapter

Just as an example, this can be the first chapter. This Chapter contains the original two definitions for the following terms **STATIONARY BALL**: A ball which is not moving. **CONTACT**: When the ball touches a figure on a rod, or any part of a rod that is internal to the playing field.

Second Chapter

Important Definitions

1. **STATIONARY BALL:** A ball which is not moving.

Now there is a second chapter that may reference some of these definitions
MOVE: A **CONTACT** that causes a **STATIONARY BALL** Please note, that the references from the definition link to the original definition.

Third Chapter

Important Definitions

1. **MOVE:** A CONTACT that causes a STATIONARY BALL
2. **STATIONARY BALL:** A ball which is not moving.

Some Plain text, that just references to MOVE and STATIONARY BALL.
